IT Support and Computer Security

ABOUT ME

Security and IT worker in Edmonton. I watch systems for attacks, write clear reports, and build secure websites for small businesses. PGWP work permit, no sponsorship needed. Full Class 5 licence, own car. I also understand Hindi, Punjabi and Urdu.

CERTIFICATES

- CompTIA Security+ (SY0-701) - June 2026
- Google Cybersecurity Professional Certificate - 2026
- Alberta Security Guard Licence - valid
- ISC2 Certified in Cybersecurity (CC) - 2026
- Intermediate First Aid and CPR - October 2026
- Studying now: Microsoft SC-200; TryHackMe SOC Level 1 (about two thirds done)

SKILLS

Finding attacks: Wazuh, Windows logs, alert checks, MITRE ATT&CK basics. 50+ lab attacks run and written up.
Networking: Subnetting and IP addressing, DHCP, DNS, NAT, ARP, VPN basics. Home lab network built from scratch.
Tools: Wireshark, Nmap, tcpdump. Splunk and Microsoft Sentinel: lab use, still learning. KQL basics.
Computers and accounts: Windows Server, Active Directory (accounts, group policy). Entra ID, MFA, access roles: lab practice. Linux command line and firewall rules.
IT help: Fix accounts, reset passwords, set up computers, solve basic network problems, write clear tickets.
Websites: Next.js, React, Python, Git. Linux servers set up with firewalls and SSL.

WORK

Security Operations Analyst - Home SOC Lab

My own lab, Edmonton, AB | 2024 - now

- Built a company-style network at home: Windows server, web server, attack box, Wazuh watch box.
- Set up Wazuh to collect logs and send alerts. I check alerts and write up what happened.
- Ran 50+ practice attacks (password guessing, brute force) and matched each to MITRE ATT&CK.
- Wrote my own alert rules and cut the false alarms down. Code and write-ups on GitHub.

Site Supervisor

GardaWorld - Strathcona County Hall, Sherwood Park, AB | Sept 2026 - now

- Run the night site at a county hall. I supervise the guards on shift and sort out coverage.
- Active Directory accounts, GTrack tickets, Avigilon cameras, incident reports.

Freelance Web and Software Developer

Self-employed, Edmonton, AB | 2024 - now

- Build and secure websites for small business clients. Next.js, React, Node. Portfolio: raghv.dev.
- Set up logins, access control and form checks. Hand over simple docs clients can follow.

IT Lab Administrator - Home Lab

My own lab, Edmonton, AB | 2024 - now

- Run the lab Windows domain: accounts, group policy, DNS and DHCP, all set up by hand.
- Automate repeat jobs with PowerShell. Write down the steps so the work stays documented.

Loss Prevention Supervisor - Impact Security Group (Dollarama) | Jan 2025 - now: Watch live camera feeds, spot theft, and write reports that go to management and police.

Screening Officer / Tactical Guard - Impact (Covenant Health, ADESA) | May 2023 - now: Check credentials for 100+ people a day, keep access logs, write incident reports.

Mobile App Developer (Capstone) - Credwise Financial via NAIT | Sep 2024 - Jan 2025: Built a finance app with a team for my NAIT capstone. Python, SQL, MERN stack.

Assistant Kitchen Manager - Leopold's Tavern | Feb 2025 - Jul 2025: Supervised 10+ staff, ran task lists, helped with inventory counts and ordering.

Line Cook - Earls Kitchen + Bar and St. Louis Bar & Grill | Jan 2025 - Oct 2025: High-volume line work at two restaurants at the same time. Reliable attendance.

Kitchen Supervisor (promoted from Line Cook) - Boston Pizza | Sept 2022 - Dec 2023: Trained new hires and ran stations at peak times. Held food safety standards.

Materials Handling / Construction Labourer - Simon Co. | Mar 2023 - now: Receiving, staging and checking deliveries on active construction sites.

EDUCATION

Diploma, Computer Software Engineering (Digital Media and IT)

Northern Alberta Institute of Technology (NAIT), Edmonton, AB | 2022 - 2024
